

GREAT LAKES BOAT BUILDING SCHOOL

A Marine Trades Institution

IF YOU **LOVE BOATS**, THE **GREAT OUTDOORS**,
AND **WORKING WITH YOUR HANDS**
AN EDUCATION AT GLBBS MAY BE PERFECT FOR YOU

The Great Lakes Boat Building School (GLBBS), founded in 2005, prepares men and women for rewarding careers in the marine industry.

GLBBS is the only accredited school in the Great Lakes Region specializing in the marine industry.

The **Comprehensive Career Boat Building Program (CCBB)** prepares individuals for employment in wooden boat building, restoration, and service settings. Graduates develop well-rounded and adaptable knowledge and skills required in the wooden boat industry. They find employment with boat and yacht manufacturers and maintenance facilities, as well as in high-end woodworking shops

The **Marine Service Technology (MST) Program** is designed to prepare individuals to become well-rounded, entry-level marine technicians. Marine technicians work in settings such as marinas, marine dealerships, boat repair yards, marine manufacturing facilities, and yacht clubs. They perform installation and maintenance services on recreational and light commercial boats.

The school strives to keep tuition as low as possible – and this is only possible because individuals like you and businesses, like this marina, become financial supporters of the school. **We hope you will consider making a gift to the school using the “Support Students” tab on our home page.** We would love to show you the school if you are considering attending. You can click here, www.glbbs.edu to get more information on becoming a student or use the link to make a gift online.
